

ANNULAR EDGE REPLACEMENT SIGHT GLASS

After a number of years processing this product for Corning, we are now in a position to offer direct replacements for these glasses

The original Annular Edge glasses were molded and the raised rims were ground flat to give 1/2" wide gasket surfaces. Our glasses are ground and polished to provide a full 3/4" thickness* across the diameter giving improved visibility, pressure rating and the ability to fit wider gaskets

* The original glasses had a pressure rating based on minimum recess thickness of 5/8"

TYPICAL PROPERTIES

Plain (Annealed) 209° C (409° F) Max Service

Part No	Dia."	PSI	Bolts
695620	4	150	6
695610	5	100	6
692540	6	60	6
694790	6 3/4	45	6
694800	8 3/8	30	8

High Pressure (Toughened) 260 ° C (500° F) Max Service

Part No	Dia."	PSI	Bolts
695621	4	450	6
695611	5	300	6
692541	6	180	6
694791	6 3/4	135	6
694801	8 3/8	90	8

For reference, the original Corning part numbers are shown
